

Stanley Ojima

Senior Product Designer · B2B SaaS and enterprise products

stanleyojima9@gmail.com · +234 705 683 3543

stanleyojima.xyz · linkedin.com/in/ojima-aniegboka · Remote

Senior product designer with 8+ years designing B2B SaaS and enterprise products across HR, fintech, health and logistics. I take dense, high-stakes workflows and make them predictable, and I measure the work by what it changes. At GoCo (acquired by Intuit), rebuilding Reports cut support tickets by 30% and lifted monthly usage from 28% to 52%.

EXPERIENCE

QuickFleet (quickfleet.co), *Co-founder & CTO*

2026 – Present

Abuja, Nigeria · Electric last-mile delivery network for Nigerian cities. Pre-launch.

- Own product and technology. Defined booking, fixed pricing, dispatch, live tracking and proof of delivery as one system.
- Designed the customer app end to end, including a four-digit delivery code receivers confirm from a text link, with no app to install.
- Designed and built the marketing site and waitlist at quickfleet.co.
- Proposed the battery-swap partnership that makes fixed, pump-independent pricing viable.

GoCo (goco.io), *Senior Product Designer*

July 2022 – April 2025

Remote · HR, benefits and payroll platform for U.S. small and mid-sized businesses, 200K+ users. Acquired by Intuit in 2025. One of two product designers, working with 8 product managers.

- Rebuilt Reports, the platform's largest source of support tickets, into a three-step flow with live preview and smart defaults: support tickets down 30%, monthly usage up from 28% to 52%, report creation 2.2× faster.
- Designed across 10+ product areas, including employee profiles, scheduling, workflows, time off and payroll; the new scheduling flow cut weekly scheduling from 45 to 15 minutes.
- Built GoCo's design system: 120+ components and tokens adopted across 12+ product modules, cutting design-to-development handoff time by 35%.
- With the Director of Design, introduced weekly critiques of work in progress, research before design, and a standard handoff format.
- Contributed to a 60% increase in customer satisfaction following the platform redesign.

Curva Digital (curvadigital.co.uk), *Senior Product Designer*

February 2020 – July 2022

Remote · London-based digital agency.

- Owned design execution across mobile apps, websites and visual systems for multiple clients, from early concepts through high-fidelity UI and delivery.
- Translated ambiguous client briefs into clear, user-focused solutions tied to business goals.
- Balanced speed, quality and stakeholder expectations across concurrent client projects.

DRO Health (drohealth.com), *Product Designer*

November 2019 – February 2021

Remote · Telehealth platform in Nigeria for consultations, medication delivery and lab tests. 50K+ users, 100K+ consultations.

- Restructured the app around its three primary intents (see a doctor, order medication, book a test); users could go from opening the app to booking in under a minute.
- Moved medical-detail collection from sign-up to the first booking, reducing sign-up drop-off by 18%.
- Worked with two other designers on a shared component system across app and website; user satisfaction rose 45%.

Busha (busha.co), *Product Designer*

May 2019 – October 2019

Remote · Cryptocurrency exchange.

- Redesigned the admin dashboard and multiple product pages for a new application on the exchange platform.

Transformify (transformify.org), *UI/UX Designer*

January 2018 – April 2019

Remote · Recruitment platform.

- Partnered with product managers on research and user needs; translated requirements into user flows, wireframes and UI.

Independent, *Contract Product Designer*

January 2017 – Present

Remote · Scoped contract engagements with startups and scale-ups, alongside full-time roles.

- Risevest (2025): redesigned onboarding, the dashboard and withdrawals for a dollar-investment app with 620K+ users; onboarding completion rose from 34% to 58%, and withdrawing went from 6 taps to 2.
- Lenox Park Solutions (2023): sole designer on an analytics platform for institutional investors with \$4T+ in client assets; made side-by-side comparison the default view.

MENTORING

Mentored 30+ designers through portfolio reviews, mock interviews and career strategy. Trained 100+ students in workshops on problem framing and measuring impact.
